

YEAR 13 & 14
INDEPENDENT STUDY TIMETABLE
2017-2018

1. About five hours per subject/week.
2. Please ensure that students complete all work set.
3. It is not enough to expect students to develop study skills on their own. It is essential to give them clear guidelines which:-
 - (a) assist them in developing general and subject - specific study skills.
 - (b) require them to commit sufficient time to homework and independent learning.
4. It is also not sufficient to expect the student to "read generally" around the subject. Tasks should be set which demand specific work e.g. summary of chapters; precis of work; preparing a talk; high level scientific examples etc.
